PROFESSIONAL SUMMARY

Junior Software Developer with hands-on experience in full-stack web development and application support. Skilled in React, C#, ASP.NET Core, and SQL-based backend systems. Proven ability to troubleshoot, analyze, and enhance software solutions. Passionate about continuous learning and delivering efficient, user-friendly applications.

TECHNICAL SKILLS

Languages	Frameworks/Libraries	Databases	Tools
JavaScript	React –	Microsoft SQL	Git
TypeScript	(Functional Components, Hooks)	PostgreSQL	Sublime
C#	ASP.NET Core MVC	MySQL	Figma
Python	NodeJS		Unity

Concepts

RESTful APIs
Object-Oriented Programming
Software Development Life Cycle
(SDLC)

WORK EXPERIENCE

eData Services
2023–Present

Junior Software Developer

- Handle complex technical issues that require deep understanding of code, systems, and databases.
- Assist users by investigating, troubleshooting, and resolving software-related problems with professionalism and clarity.
- Design, develop, and maintain software features, including interfaces and integrated systems.
- Write and optimize SQL queries and database objects to support application needs.
- Collaborate with cross-functional teams to coordinate software releases and improvements.
- Contribute to quality assurance processes and guide users during testing and rollout.
- Stay up-to-date with modern development tools and practices, adapting quickly to new technologies.

Freelance Feb. 2023 – Aug. 2023	**Facebook Ads Manager** • Execute and manage social media advertising campaigns, including creating ad copy and targeting strategies. • Design and produce engaging ads aligned with client branding and goals.
Golden Arches Development Corp. Feb. 2018 – May 2019	**McDonald's Service Crew** • Operated POS system and processed over 300 customer orders per shift. • Maintained cleanliness and performed additional tasks to support smooth operations.

EDUCATION

STI College Las Piñas
2019–2023

Bachelor of Science in Computer Science

Studied core areas of computer science including web development, object–oriented programming, algorithms, and data structures. Gained practical experience through hands–on projects such as a 3D Android game developed in Unity and C#. Covered additional subjects like software engineering, database management, mobile development, and network administration. Graduated **Cum Laude**, GWA: 1.40.

AMA Computer College – Naga Campus
2017–2019

SHS - Information in Communication Technology (TVL-ICT)

Specialized in computer programming with emphasis on Java and Oracle Database. Completed hands–on projects and work immersion at the Philippine Health Insurance Corporation, assisting with data encoding and documentation. Graduated **With Honors,** GWA: 94.
