PROFESSIONAL SUMMARY

Software Developer with experience designing, developing, and maintaining production web applications across frontend, backend, and database layers. Strong background in React, TypeScript, C#, ASP.NET Core, and SQL-based systems, with hands-on experience in application support, API development, and system enhancements.

PROFESSIONAL EXPERIENCE

eData Services Philippines, Inc. | 2023 - Present

Junior Software Developer

- Designed, developed, and maintained enterprise application features used in internal production systems, handling frontend, backend, and database integration.
- Owned end-to-end implementation of modules, including UI components, backend business logic, database support, and reporting features.
- Implemented role-based access control, audit logging, and workflow rules across multiple systems to improve security and traceability.
- Built and optimized RESTful APIs to support configuration management, reporting, and job workflow processes.
- Wrote and optimized SQL queries, stored procedures, and database objects to ensure data accuracy, performance, and maintainability.
- Investigated and resolved production issues by analyzing application behavior, logs, and database records, improving system stability.
- Collaborated with cross-functional teams to deliver enhancements and maintain system consistency.

TECHNICAL SKILLS

Languages

JavaScript, TypeScript, C#, Python, PHP

Frontend

React (Functional Components, Hooks),
HTML, CSS

Databases

Microsoft SQL Server, PostgreSQL, MySQL

Backend & APIs

ASP.NET Core MVC, Node.js, Bun,
RESTful API Development
